Check-a-Church

The Bible is very simple and easy to understand, provided you have the author: the Spirit of God.

Unfortunately, many religions land far afield of Bible truth, relying on man's wisdom, inaccurate history, made-up traditions, and inventing doctrines, rules, and laws out of thin air. These institutions, more often than not, attempt to support their positions using bits of Bible verses taken out of context.

How does your church teachings, doctrines, and theology align with the Bible? You might be surprised!

Using the contact page on this site (**PPGpilot.com**), send the website address of the church in question, or a copy of your church's various statements.

You can also send a sermon for a biblical audit.

You will receive a detailed report for your consideration.
