

## Birth Pangs

---

There is no question that our world is in its last days. Very soon, Christ will return for His Church and remove His Spirit from the world, the Tribulation to follow.

As the end approaches, various events will occur throughout the world, becoming more frequent and more violent the closer we come to the Tribulation. Somewhere in this time, the rapture of the Body of Christ occurs. After the rapture, when God's Spirit is no longer over the earth, there will be a cascade of events that will leave no doubt that the world is under God's judgment and wrath.

Jesus compares the end of the world to a woman in travail. The birth of her child is not a surprise as she has been aware of her condition for many months. She knows when she will deliver, but not the day or the hour. She will deliver on time, whenever that might be, and there will be no delay. Still, the exact moment is unknown. As her time approaches, birth pangs signal the beginning of the end, growing in intensity hour by hour.

Our world is on course to its end. It is not a surprise as we have been aware of the world's condition for centuries. We know when the world will end because God, throughout the Bible, makes His plan and timing abundantly clear to anyone who has spiritual sight. And that time is upon us. It will surely come, it will not delay.

See "[The end is Now](#)" on this website [PPGpilot.com](http://PPGpilot.com)

Still, the exact day and hour of the world's demise is unknown. As the time approaches, "birth pangs" begin, signaling the beginning of the end, growing in intensity day-by-day. These "birth pangs" have been occurring for the last 120 years.

Today, as the world barrels toward its destiny and destruction, earth's inhabitants are blissfully and ignorantly unaware of the signs of the times as they unfold right before their very eyes. Without spiritual discernment, and with no ability to understand the Bible, with no knowledge of God, denying God, they see the droughts, fires, volcano eruptions, thawing glaciers, melting ice and permafrost, earthquakes and tsunamis, rising ocean levels, warm ocean temperatures fueling raging storms, hurricanes, tornadoes, typhoons, floods, wandering jet streams, and mudslides, and in their search for a reason, they blame it all on "climate change". The climate may be changing, but it is not due to man or machine, but the hand of the Almighty Creator God turned against a wicked world. Think "birth pangs".

As we approach the appointed day and hour, expect world calamities - the birth pangs - to increase in frequency, intensity, and severity, not in the weather only, but in every aspect of world unrest and confusion.

If you think God turning up the temperature a few degrees is some big deal, just wait. You ain't seen nothin' yet!

He did warn us.
