

The Gap Theory

Gap Creationism, a.k.a. The Gap Theory, is a myth invented by individuals with little to no Bible understanding, and no spiritual guidance. It is an attempt by some to accommodate and explain a position of “science-so-called” that believes the earth is blah, blah, blah years old (a.k.a. “old earth theory”).

- The position itself is a recent revelation of man, virtually unknown before the 19th century.
- There is no biblical reference or support for a “gap theory”.

The Bible says what God wants us to know and there is nothing said about a pre-earth world, and it makes zero difference to anyone today if their were such a world. It is a satanic distraction to create confusion, put doubts in the minds of the people, and keep people from God. Nothing more.
